

DELIVERY
SUMMER 2026

NEW CONSTRUCTION, CLASS-A, INDUSTRIAL PARK

Tamiami Logistics Center at 14100 SW 136th Street in Miami is a best-in-class, three-building industrial development delivering modern space solutions for today's warehousing, logistics, and light manufacturing users. With floor plans starting at ±3,600 SF for small flex bays and extending up to ±67,800 SF for full-building opportunities, the project is designed for maximum flexibility and operational efficiency.

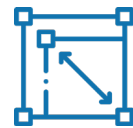

This brand-new industrial park, slated for delivery in Summer 2026, combines Class A design with highly functional layouts. Each building features 18-24' clear heights, dock-high and drive-in loading, and ESFR sprinkler systems to support a variety of operational needs. Spec office spaces with premium finishes are available to streamline occupancy, while efficient layouts and high-quality construction ensure a professional, future-ready environment for a wide range of users.
